 MEDICARE UPDATE - SPRING 2019

## Medicare and Telehealth Services

---

- You must use an interactive audio and video telecommunications system that permits real-time communication between you at the distant site, and the beneficiary at the originating site.
- Transmitting medical information to a physician or practitioner who reviews it later is permitted only in Alaska or Hawaii Federal telemedicine demonstration programs.

Spring 2019

## Medicare and Telehealth Originating Sites

- An originating site is the location where a Medicare beneficiary gets physician or practitioner medical services through a telecommunications system. The beneficiary must go to the originating site for the services located in either:
  - A county outside a Metropolitan Statistical Area (MSA)
  - A rural Health Professional Shortage Area (HPSA) in a rural census tract

The Health Resources and Services Administration (HRSA) decides HPSAs, and the Census Bureau decides MSAs. To see a potential Medicare telehealth originating site's payment eligibility, go to [HRSA's Medicare Telehealth Payment Eligibility Analyzer](#).

## Medicare and Telehealth Originating Sites

### Authorized originating sites include

- Physician and practitioner offices
- Hospitals
- Critical Access Hospitals (CAHs)
- Rural Health Clinics
- Federally Qualified Health Centers
- Hospital-based or CAH-based Renal Dialysis Centers (including satellites)
- Skilled Nursing Facilities (SNFs)
- Community Mental Health Centers (CMHCs)
- Renal Dialysis Facilities
- Homes of beneficiaries with End-Stage Renal Disease (ESRD) getting home dialysis
- Mobile Stroke Units

## Medicare and Telehealth 2019 Originating Site Changes

- Beginning January 1, 2019, the Bipartisan Budget Act of 2018 removed the originating site geographic conditions and added eligible originating sites to diagnose, evaluate, or treat symptoms of an acute stroke. MLN Matters® article entitled: [New Modifier for Expanding the Use of Telehealth for Individuals with Stroke](#) explains how to use the new modifier for billing.
- Beginning July 1, 2019, the Substance Use-Disorder Prevention that Promotes Opioid Recovery and Treatment (SUPPORT) for Patients and Communities Act removes the originating site geographic conditions and adds an individual's home as a permissible originating telehealth services site for treatment of a substance use disorder or a co-occurring mental health disorder.

Spring 2019

## Medicare and Telehealth Distance Site Practitioners

Distant site practitioners who can furnish and get payment for covered telehealth services (subject to State law) are:

- Physicians
- Nurse practitioners (NPs)
- Physician assistants (PAs)
- Nurse-midwives
- Clinical nurse specialists (CNSs)
- Certified registered nurse anesthetists
- Registered dietitians or nutrition professional
- Clinical psychologists (CPs) and clinical social workers (CSWs)
  - CPs and CSWs cannot bill Medicare for psychiatric diagnostic interview examinations with medical services or medical evaluation and management services. They cannot bill or get paid for Current Procedural Terminology (CPT) codes 90792, 90833, 90836, and 90838.

A physician, NP, PA, or CNS must furnish at least one ESRD-related "hands on visit" (not telehealth) each month to examine the beneficiary's vascular access site.

CPT only copyright 2018 American Medical Association. All rights reserved.

## The New Medicare Card Project

The *Medicare Access and CHIP Reauthorization Act of 2015 (MACRA)* requires us to remove Social Security Numbers (SSNs) from all Medicare cards

- This was implemented to better protect private health care and financial information
- A new *Medicare Beneficiary Identifier (MBI)* replaces the SSN-based Health Insurance Claim Number (HICN)
  - CMS used an MBI generator to assign 150 million MBIs in the initial enumeration and a unique MBI for each new Medicare enrollee
  - New cards were scheduled to be mailed between April 2018 – April 2019
  - The final mailing wave was completed in mid-January 2019
- Providers may use either identifier during the transition period
  - April 1, 2018 – December 31, 2019

## The New Medicare Card Project Get It! Use It!

### Ways to obtain the new MBI

- myCGS has been enhanced to include an [MBI Look-Up Tool!](#)
  - Must have patient's first/last name, date of birth, and social security number
- Ask patient for copy of card
- Patient can access account on [mymedicare.gov](http://mymedicare.gov) to look up MBI
- Since October 2018, MBIs are noted on your remittance advices
  - [Electronic Remittance Advice \(ERA\)](#)
  - [Paper Remittance Advice \(RA\)](#)

### MBI Resources

- The [MLN Fact Sheet](#) is a great resource for you!
- [NEWSFLASH!](#) Adding an 'A' to a SSN is not always the patient's HICN!

## Are YOU Using the MBI???
